# U.S. EXPORT SALES

- Outstanding Export Sales  
(Unshipped Balances)  
On March 7, 1976
- Export shipments in  
Current Marketing Year
- Daily Sales reported  
March 8-16, 1976

-- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales

EXPORT SALES REPORT

Comments on release of March 18, 1976 (based on reports from exporters during the week ending March 7, unless otherwise noted):

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1975/76 increased by 596,800 metric tons (MT), the largest weekly increase since the week ending January 25, 1976. Total commitments for the year now stand at 29.2 million MT. Commitments to Japan rose by 137,500 MT as a result of new sales, bringing the total for the year to 3.0 million MT. New sales advanced commitments to Pakistan (115,900 MT), Bangladesh (98,900 MT), and Morocco (80,000 MT). This week's new sales to Brazil of 110,000 MT have pushed total commitments to that country for the year to 2.6 million MT. To make up for the shortfall in their 1975 wheat crop, Brazil has turned to the world market for heavy imports of wheat. Total imports have been forecast to hit as high as 3.7 million MT in the October 1975-September 1976 period, up 62 percent from the previous year.

Feedgrains: The apparent export commitment for feedgrains rose by 540,400 MT, bringing the total for the year to 31.5 million MT. Corn commitments advanced by 560,500 MT, the lowest weekly increase since the week ending January 4, 1976. Total corn commitments have now reached 26.7 million MT, of which 7.2 million MT are outstanding sales. Most of the changes in corn commitments were attributable to higher commitments to the Netherlands (109,900 MT), Japan (159,600 MT), and the USSR (228,800 MT). Commitments to Japan now total 3.6 million MT, of which 2.0 million MT have been exported. The outstanding sales of 1.6 million MT to Japan represent over one-fifth of total outstanding sales for this marketing year. The increased commitments of corn to the USSR reflect transfers from optional origin rather than new sales. Total sorghum commitments remained relatively unchanged from last week at 4.2 million MT.

Rice: The apparent export commitment for rice in 1975/76 increased by 67,100 MT, the largest weekly increase since the week ending November 2, 1975. Sales to Syria of 20,000 MT represented the first sale of U.S. rice to that country this year. Sales to Iran of 22,500 MT were largely responsible for the balance of the increase in commitments. Rice commitments for the year now total 1.1 million MT, about three-fourths of which have been exported.

Soybeans: The apparent export commitment for 1975/76 increased 304,700 MT, reflecting increased commitments to the EC, Japan, Spain, and Romania. The commitment to unknown destinations declined 55,400 MT, following substantial changes to known destinations. Exports during the week totaled 415,500 MT, primarily to the EC (263,200 MT), Japan (57,000 MT), Norway (29,400 MT), and Romania (25,200 MT).

At the FAO meeting on oilseeds in Rome March 11, the EC delegate defended the deposit scheme to encourage use of 400,000 MT of surplus skim milk powder in animal feeds. He claimed that because the EC imports 14 million

MT of oilcakes annually the price effect resulting from the measure would be small. Therefore, he could not foresee any significant impact on import demand. He further assured the other assembled delegates that, for budgetary reasons, it was not possible to reduce the 1.2 million MT surplus completely through feeding subsidies. The United States, however, considers this scheme a serious impairment to its GATT bindings and has requested early consultations with the Community. The EC measures would result in direct displacement of soybean meal, higher import costs for vegetable protein, and an increase in meal prices relative to feedgrain prices.

Soybean Oilcake and Meal: The apparent export commitment for 1975/76 increased 91,800 MT, primarily reflecting increased commitments to unknown destinations - up 51,500 MT. Exports during the week totaled 48,900 MT, primarily to the Netherlands (27,600 MT) and Poland (12,600 MT).

Cotton: The apparent 1975/76 Upland cotton export commitment rose to near 3.1 million running bales, 98 percent of the mid-point of USDA's seasonal export projection. Cancellations were registered for the Republic of Korea and the Republic of China (Taiwan). Even so, good export sales activity registered some improvement over the previous week, with higher sales for 1975/76 delivery more than offsetting reduced interest in 1976/77 delivery. Japan, the Republic of the Philippines, and Canada were the main buyers. Domestic and foreign price quotations for U.S. cotton were steady at the levels prevailing a week earlier. The U.S. continued as the chief supplier of the light international demand. The People's Republic of China reportedly took up some additional Central American cotton.

ADDITIONAL DATA ARE INCLUDED ON PAGES 27-29 FOR UPLAND COTTON BY CLASS; CORN, ACCUMULATED EXPORTS AND OUTSTANDING SALES; AND STATUS OF EXPORT SALES TO USSR AS OF MARCH 16, 1976.
